Education

STI College Fairview

Bachelor of Science in Information Technology

Quezon City

July 2026

Professional Experience

VPD Business Solutions Inc

Intern - Client Profiling Mobile Application

Quezon City

February 2026 – May 2026

- Developed a cross-platform mobile application using Flutter integrated with Laravel REST APIs, improving system functionality and user accessibility.
- Designed 3 core system documentation artifacts, including an ERD, Process Flow Diagram (PFD), and Data Flow Diagram (DFD), supporting clear system planning and development.
- Designed dynamic reporting, history logs, and role-based access modules, enhancing data accuracy, system security, and decision-making through automated business reports.

Accenture

Work Immersion

Quezon City

January 2022 – May 2022

- Developed a Microsoft Power Apps business application for employee attendance tracking, improving the accuracy of time-in and time-out monitoring.
- Automated attendance recording and reporting processes, reducing manual work and increasing operational efficiency.
- Implemented user-friendly features for attendance management, enhancing the overall user experience.

Projects

FitOps Gym Management System

Full Stack Developer

Quezon City

<https://fitops.site/>

- Built and deployed a full-stack Gym Management System using React, Laravel, MySQL, Tailwind CSS, and RESTful APIs, supporting core gym management operations.
- Implemented secure authentication and role-based access control (RBAC) using Laravel Sanctum and Spatie Permission for Admin, Trainer, and Member roles.
- Developed modular CRUD functionality and business logic for members, trainers, membership plans, memberships, payments, and attendance.

MikeMadz Online Ordering & Inventory System

Lead Programmer - Capstone

Quezon City

<https://mikemadz.com/>

- Developed a full-stack online ordering and inventory management system using PHP, MySQL, HTML, CSS, JavaScript, and Bootstrap, streamlining the ordering process for customers and administrators.
- Implemented key features including product management, inventory monitoring, order tracking, user authentication, and multiple payment options, improving business operations and customer convenience.
- Designed dynamic reporting, history logs, and role-based access modules, enhancing data accuracy, system security, and decision-making through automated business reports.

Achievements

Best Capstone Thesis Award

STI College Fairview

Quezon City

November 2025

- Awarded 2nd Best Thesis for developing the MikeMadz Online Ordering System, recognized for its practical business impact, system design, and innovation.
